Content

Without any doubt, 2020 was not an easy year, but we remained resilient against despair. The coronavirus pandemic had imposed itself on the world, and the grave economic crisis, the worst in decades, crippled Lebanon leading to the collapse of its national currency, and increasing the daily sufferings of the Lebanese.

Makassed, like many institutions and vital facilities in Lebanon, was severely affected by the crisis that our beloved Lebanon is passing through. However, our efforts and those of the people who want to maintain this prestigious association managed to minimize the losses as much as possible.

We succeeded, by hard work and determination, to thaw obstacles with a bright future outlook, to build a stronger and better community, despite it all.

Makassed's passionate employees and the contributions of generous donors supported the education of underprivileged students, knowing that education is in the core of Makassed's ethos that underlines the importance of raising a skilled generation capable of making positive change in our community.

Our community also supported the Association in an inspirational way.

This aforementioned year, Makassed revamped several sectors and departments under the support of generous contributors.

Makassed's General Hospital also played its outstanding role in combating covid-19 virus, making it a pioneer in setting and equipping a department specialized in treating covid-19 patients and giving vaccination.

Thank you for all those who contributed with us to reinforce our educational, social and health roles in our society.

My friends, this year we proved that together we can make difference.

About Makassed

Makassed Philanthropic Islamic Association of Beirut was founded in 1878 to provide services within three main sectors: health, education and social affairs. In line with its core beliefs, services cater to all individuals on Lebanese grounds regardless of their gender, religion, age or nationality.

It offers academic excellence to children and young people, secures preventive and curative healthcare aids and, through specific projects addressing the community's needs, supports women, elderly and refugees. The Association runs a University in Beirut with three faculties, 13 schools and a vocational and technical training center. Makassed also runs a General Hospital, four primary healthcare centers and three health mobile units that cater to the medical needs of individuals across Lebanon. In 2014, Makassed set up Ward El Makassed Center to empower underprivileged

women and youth with much needed skills through accelerated vocational trainings. Makassed outreach programs continue to expand in new fields to embrace a new generation of community players. The Volunteers Unit and the Scouts Association constantly promote a strong civic engagement and encourage those who devote their time to serving others. Makassed Religious Affairs Unit oversees activities carried out by the six Makassed mosques and centers. It monitors the religious programs of the Association and promotes activities in line with the funding mission and policies of Makassed. It is committed to preserving Muslim doctrine, principles and values, emphasizing and promoting the essence of Islam far from any extremist beliefs by organizing religious events and lectures. It also manages the two Muslim cemeteries in Beirut (Bachoura and Chouhada), including their community halls.

Mission

Makassed was established on a culture of tolerance, justice, humility and patriotism, so that citizens take pride in their values and identity while remaining open to the world and its cultural diversity.

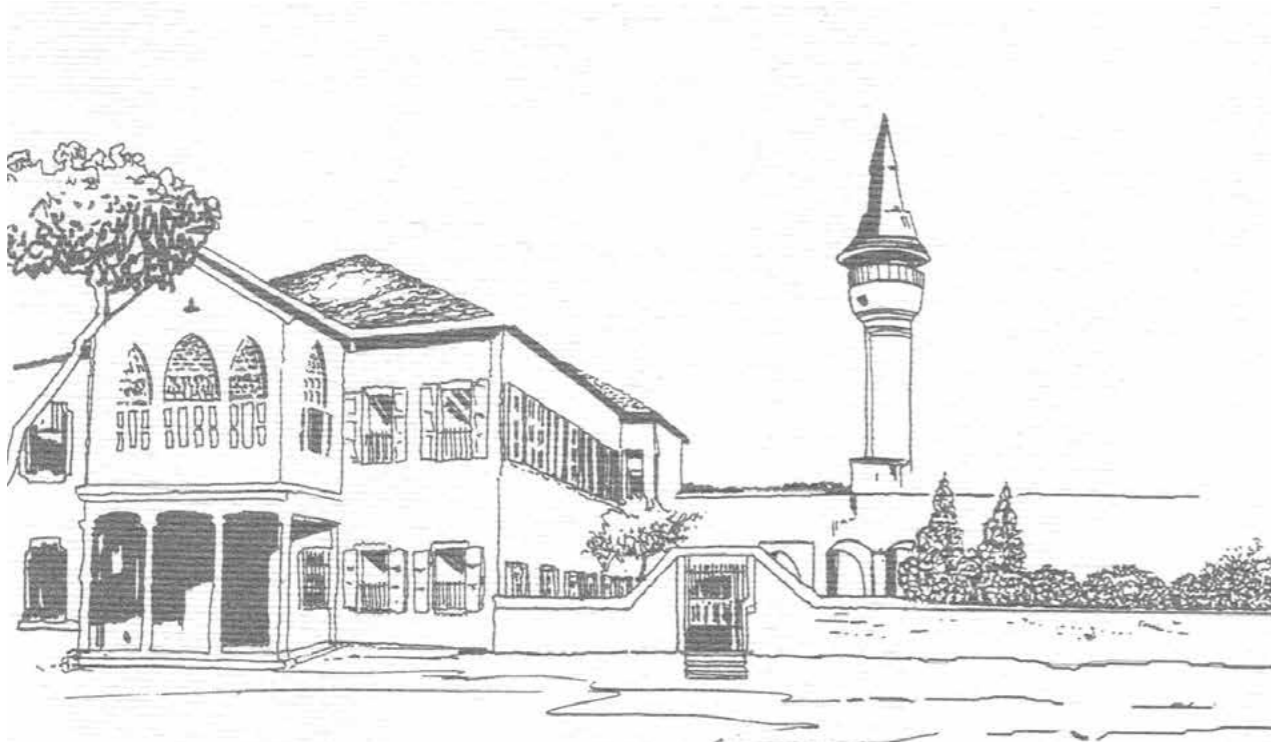

Vision

Makassed is a central pillar of humanitarian activity in Lebanon and was first founded to empower society through education. Today its activities span from hospital and health care services, to kindergarten, vocational centers, schools and universities and also social empowerment to the most vulnerable.

Values

Makassed beliefs are in line with its initial ethos:

- Education is essential for economic and social progress and sustainability;
- Women are vital contributors to such progress;
- Everyone has an equal right to educational opportunities and healthcare;
- Civic engagement is a basic component of social, economic and cultural strength.

Fundraising and Development Department

Fundraising and Development Department

Established in 2016, the Fundraising and Development Department at Makassed identifies the gaps and needs of all Makassed sectors, the needs of the Association and the various funding channels for current and future projects. It also monitors the posting of new projects funded by private companies, endowment funds, donor organizations and individuals. It has successfully established numerous partnerships to find donation sources and tracks potential funds from international organizations, private establishments and individual initiatives whether in Lebanon or abroad to expand its activities. It aims to diversify the sources of funding in Lebanon (governmental and non-governmental institutions, individuals, banks and voluntary funds), and oversees (Arab and foreign countries, international donors and funds).

Mission

Ensure the financial stability of Makassed to alleviate the suffering of underprivileged communities by mobilizing the needed resources to support all Makassed Units.

Objectives

- Capital and operational expenditures in the Education, Healthcare and social sectors;
- Subsidizing the learning of those who cannot afford a decent education, in particular in remote areas;
- Subsidizing healthcare and social services for less fortunate members of the society;
- Securing sustainable financing through grants.

Funding prospects and sources

In 2020-2021, the Fundraising and Development Department continued to:

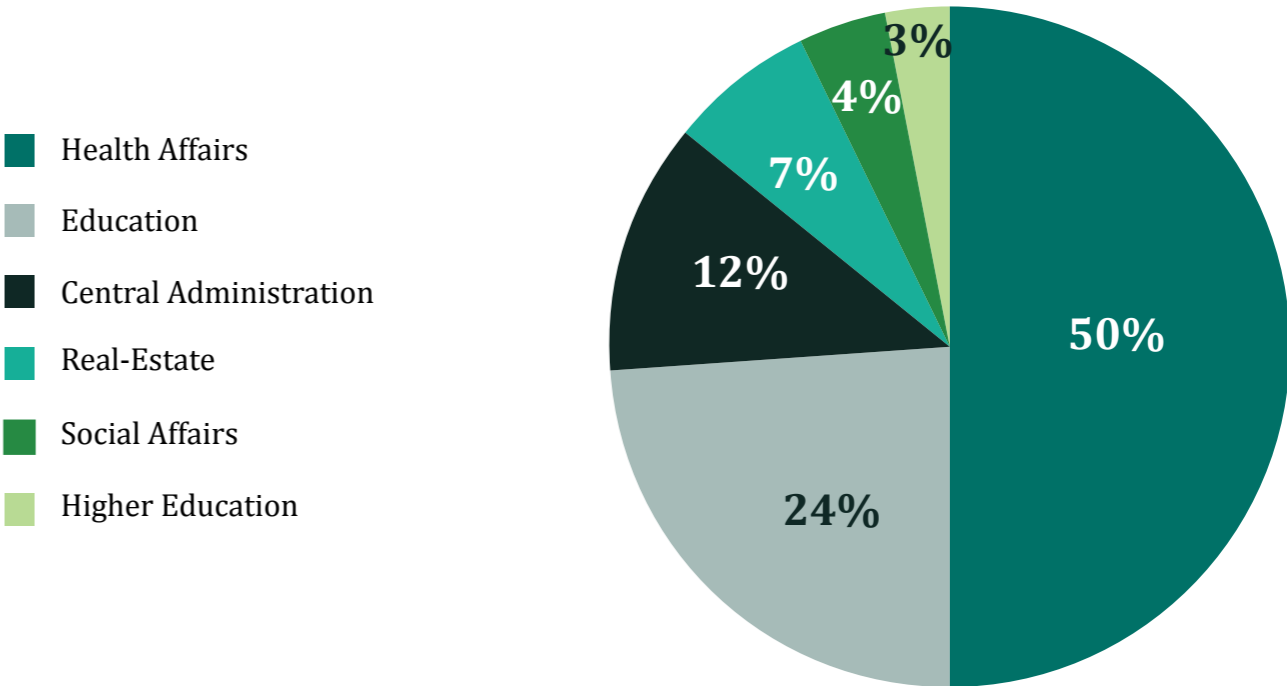

- Ensure cooperation constancy with existing donors
- Identify and secure new funding sources:

Companies: 5
Banking sector, commercial companies and private institutions: 6
Supporting individuals: 177

Budget

Makassed operates three university colleges and a vocational training center, in addition to 13 schools across Lebanon, four of which are located in Beirut, while the remaining are distributed in rural areas. Also It runs a General Hospital, four clinics and three mobile units. Makassed is also in charge of seven mosques, a Volunteers Unit, a Scouts Association, an archives department, in addition to a Properties and Real Estate Investment Office and Makassed Publishing and Printing House.

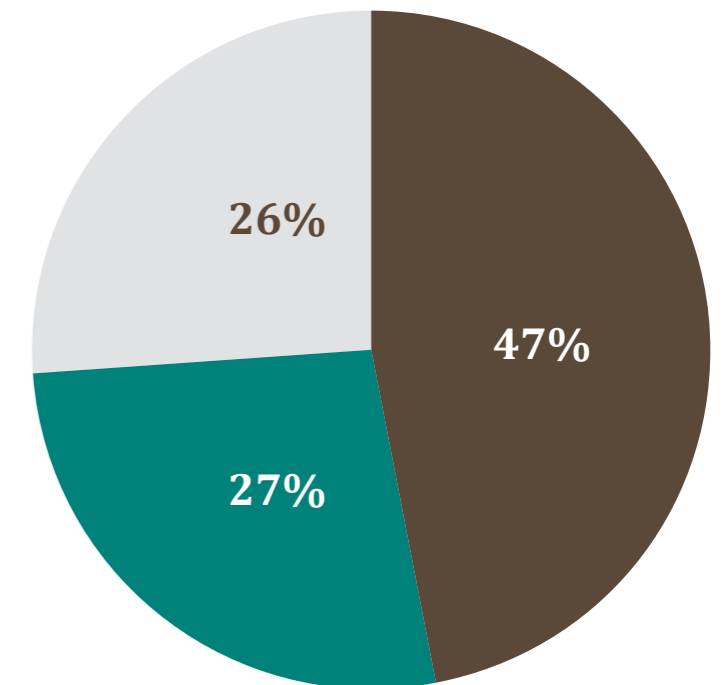

Makassed’s annual budget in 2020-2021 reached: 133,927,814,444 LBP distributed as such:

University

Makassed University offers its students a quality learning environment in different fields, keeping pace with modern developments and committing to scientific research.

The University academic standards meet the necessary requirements and the aspirations of its affiliated students. It is made of three faculties: Islamic Studies, Nursing and Health Sciences, and the newly established Teachers Training Faculty.

Nursing and Health Sciences

Established in 1948, the College of Nursing and Health Sciences is one of the oldest nursing schools in Lebanon and the MENA region.

Makassed embraced the school under its umbrella, continued developing it, and upgraded into the “Makassed Higher Institute for Nursing” in 1986, to offer the Bachelor of Science degree in Nursing and Medical Laboratory Technology.

In 2006, the “Makassed Higher Institute for Nursing” became the “College of Nursing and Health Sciences,” offering in addition to Nursing, Medical Laboratory, Respiratory Therapy (RT) and Medical Radiation Technology (MRT).

The Master’s in Nursing Degree was licensed in 2013.

Islamic Studies

The College was established in 1982 to offer a Master of Arts degree in Islamic Studies and houses a rich library.

It has a distinguished elite of professors and a library specialized in Islamic heritage, considered one of the richest libraries in Lebanon in this field with a collection of 100,000 books and 508 original manuscripts.

Understanding, tolerance, and acceptance are essential values to graduate students, researchers and advocates of citizenship based on the tolerant concepts of Islam.

Teachers Training Faculty

The Teaching Diploma degree was established in 2021-2022, taking into account the recent accelerating advances in the field of education.

Students study in Arabic, English, French, in the fields of early childhood education, mathematics, sciences, chemistry, physics, philosophy and psychology, history, geography, social studies and economics.

Schools

Makassed mission and activities have expanded over the decades but its initial commitment to education remains central to its work.

Nowadays, 13 primary, elementary, middle and secondary schools educate more than 8,000 students from Akkar (North Lebanon) to the South, and from Beirut to the Beqaa. Makassed schools are committed to provide subsidized education in elementary schools and have recently included a comprehensive unit to provide for children with learning difficulties and special need.

Academic Achievements

Abi Bakr As Siddiq Elementary

- Awarded the International Cognia accreditation for the second time;
- Received the British Council International School Award;
- Student Ahmad Hariri obtained certificate of appreciation from Classera Middle East.

Khaled Ben El Walid College

- Awarded the International Cognia accreditation for the third time;
- Received the British Council International School Award;
- Student Sultan Araimet obtained certificate of appreciation from Classera Middle East;
- Implementation of Starmanship leadership program;
- Received the Microsoft Showcase School certificate for the first time;
- Implementation of Genius MAP powerful brain development program that is created to help children develop their mental power at an early age;
- Student Mariam Barhoumi ranked second in the official General Sciences (GS) exams, while Nour Baitamouni ranked seventh in Life Sciences section.

Khadija El Kobra

- Received the British Council International School Award;
- Joined the Agence pour l'Enseignement français à l'Etranger (AEFE) network;
- Student Khaled Mneimneh ranked fifth in the Sociology and Economics official exams in Beirut.

Ali Ben Abi Taleb School

- Received the British Council International School Award;
- Received the Microsoft Showcase School certificate for the sixth year in a row, while a number of educators received the Microsoft Expert Educator;
- Setting up a Creative Writing Center in cooperation with the Lebanese American University (LAU).

Omar Ben El Khattab School

- Received the British Council International School Award;
- Awarded the Microsoft Showcase School certificate for the third year in a row, while a number of educators received the Microsoft Expert Educator;
- Obtained Classera e-learning platform award;
- Teacher Raymonda Sharaf and student Ahmad Rachidi received Classera certificates of appreciation;
- Student Reem Wehbe ranked eighth in Life Sciences official exams in Beirut.

Makassed Vocational and Technical Center

Founded in 1994, Makassed Vocational and Technical Center offers two kinds of programs:

- Various degrees and majors leading to Brevet Professionnel (BP), Technical Baccalaureate (BT), and Technicien Supérieur (TS) certificates
- Accelerated and intensive courses in cooperation with various commercial and industrial sectors

The Center pursues its mission to serve the community, as well as to raise technical education to the highest levels in terms of practical and theoretical studies.

Expansion and Development Projects:

Makassed revamped several facilities of the Education Sector for a total amount of 756,024 USD:

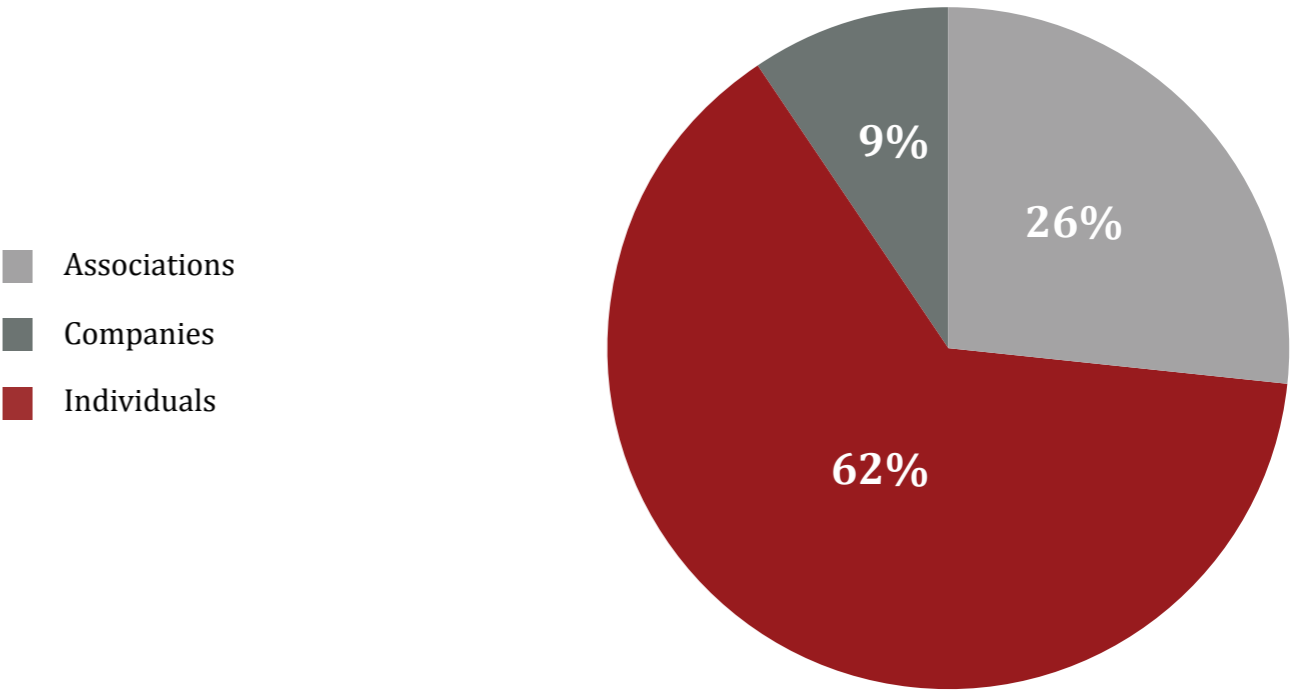

- Renovating Tiny World Daycare and its playground 425,670 USD;
- Renovating the playgrounds of Ali Bin Abi Taleb and Omar Bin Al Khattab schools 20,000 USD;
- Building an amphitheater and renovating the playground at Khaled bin Al Walid School 6,600 USD;
- Setting up football yards at Ali Bin Abi Taleb School 85,000 USD;
- Wrapping up the first part of revamping Aarsal School 92,524 USD;
- Wrapping up the first part of revamping Marj School 26,230 USD.

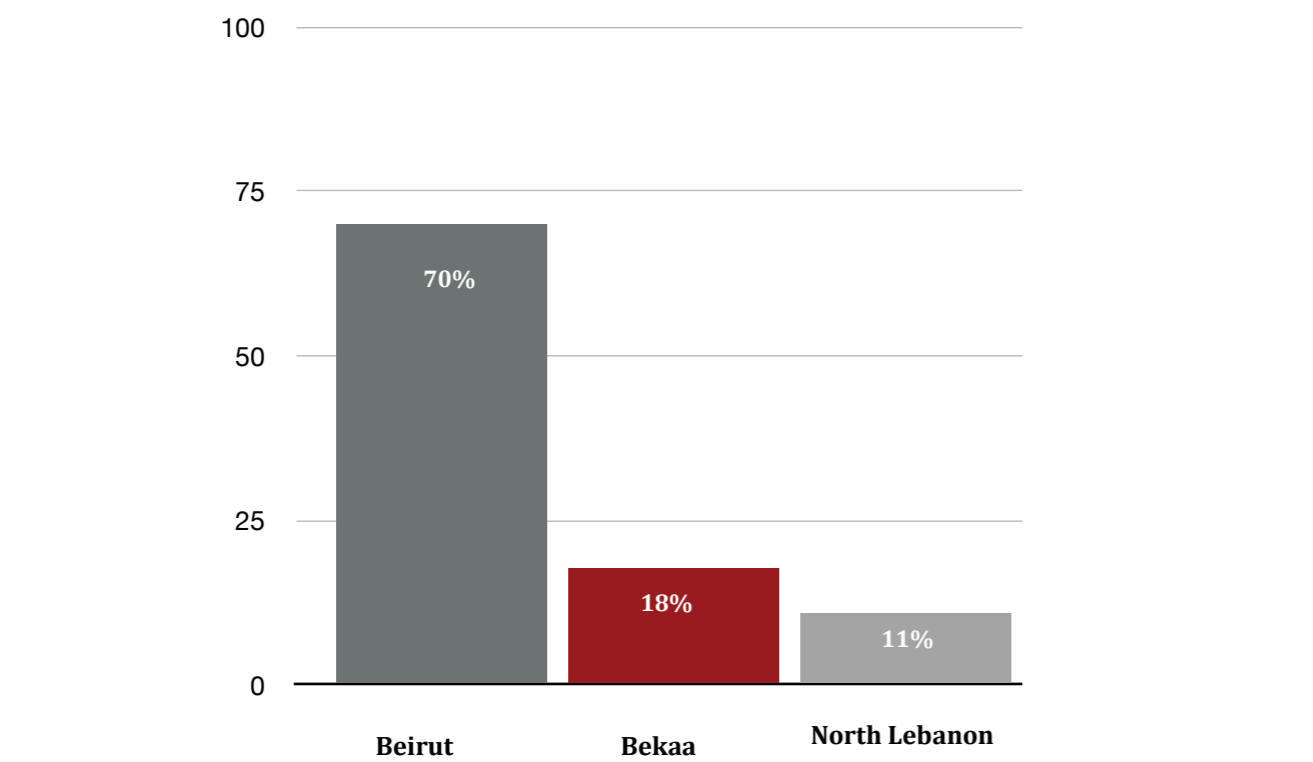

Scholarship Fund

Makassed established the Scholarship Fund Unit to reduce the phenomenon of school dropouts, in an effort to support parents unable to pay the tuition fees of their children due to the unprecedented economic crisis in Lebanon, considered to be the worst of its history. The Fundraising and Development Unit supported the 2020-2021 tuition fees of students unable to meet their school balances, with scholarships distributed to 4,592 students at Makassed schools and colleges in Beirut and remote areas for an amount of 6.9 billion Lebanese pounds. In addition, it closed last year's balances of students for an amount of 1.4 billion Lebanese pounds, which indicates that the growth factor for financial aid for current students is equal to 2.45%. The gross total of financial aid reached 8,433,397,634 LBP, with 8,326,398,531 LBP for the academic year 2020-2021 and 106,999,103 LBP for the academic year 2021-2022.

Makassed General Hospital

Since its foundation in 1930 in Beirut, Makassed General Hospital (MGH) provides patients with high-quality and affordable services for all kinds of illnesses, diseases or injuries. It started as a modest two-storey building with 13 doctors and 10 nurses. In 1949, the hospital building expanded to five floors and set on its course to become the general hospital it is today. Today, MGH continues its strong legacy and has grown in size, scope and reputation, offering a full range of inpatient, outpatient and emergency medical services. MGH has also developed into a major teaching hospital, offering postdoctoral medical and fellowship training programs for physicians through its affiliations with the American University of Beirut (AUB), Beirut Arab University (BAU), the Regional University Hospital Center, as well as Lille University in France. With the hospital’s focus on keeping pace with clinical research, which has become an integral part of clinical and hospital activities. Respecting the principle of separation of powers, each hospital department is an organizational element of the medical administration; qualified physicians ensure, in each department, that the vision of the General Hospital is implemented in their daily practice. Makassed General Hospital annually requests from physicians to provide sufficient Continuing Medical Education (CME) credits. The goal of providing adequate patient care remains a priority for all medical and paramedical staff.

COVID-19 Unit

The first case of COVID-19 was detected in Lebanon in February 2020 and Makassed quickly set up in April 2020 a sealed off and dedicated unit to address the pandemic on a national scale.

Units	Start Date	Capacity	Expansion date	Capacity
Emergency	30.04.2020	6 beds	22.01.2021	18 beds
Isolation Unit	30.04.2020	10 beds	01.03.2021	49 beds
Intensive Care Unit	30.04.2020	5 beds	01.03.2021	12 beds

Makassed General Hospital was among the first hospitals to obtain accreditation in May 2020 from the Ministry of Public Health to conduct COVID-19 testing in its laboratories and PCR tests.

COVID-19 Vaccination Center

Makassed launched its vaccination campaign on February 17, 2021 through the Ministry of Public Health platform. The workforce included pharmacists, nurses, medical staff, Makassed Volunteers and Scouts, students from the Arab University and security agents. The center also provides a meaningful explanation of post-vaccination, through flyers, TV ads and slide shows, as well as individual awareness, during the observation period.

Makassed HealthCare Bureau (MHCB)

The Makassed Healthcare Bureau (MHCB) was established in 1983 to monitor public health and provide health assistance to the Lebanese community. It expanded to include affiliated primary health care centers.

The office recently developed new relationships with the public and private sectors locally and with internationally when there was a need to expand the scope of its work geographically and enhance its services further.

MHCB oversees four Primary Healthcare Centers (PHCCs) across Lebanon, including three Mobile Medical Units (MMUs) in populated and/or remote areas in Beirut, the Beqaa Valley, Akkar and Mount Lebanon.

MHCB provided its services and programs proficiently and at a cost-effective value, despite the staggering economic crisis, political instability and social conflicts as it was able to provide 11,143 services to a total of 22,735 beneficiaries.

Expansion and Development Projects

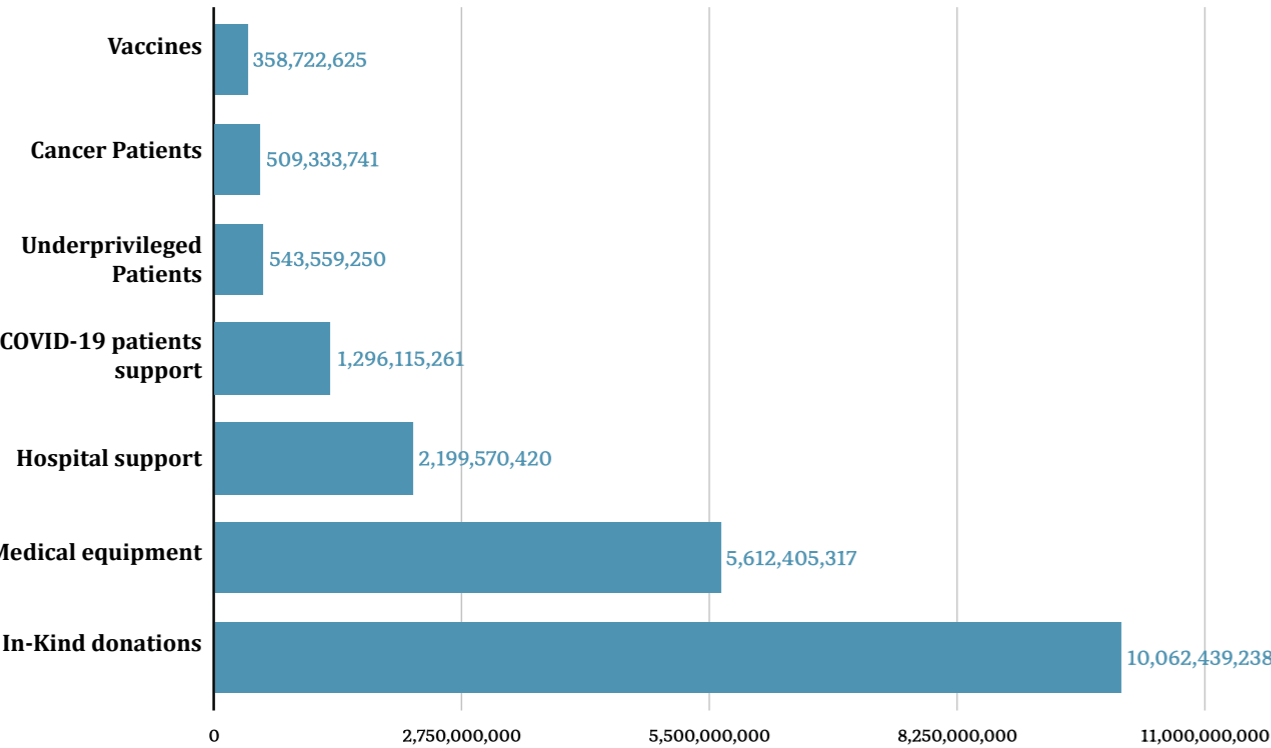

- Makassed revamped and established new departments in the Health Sector with a gross total of 507,450,000 LBP and 1,262,036 USD as per the following:
- 1. Renovation of patients rooms in the Department Surgery 148,000,000 LBP and 180,000 USD;
 - 2. Setting up a Cardiovascular Surgery Unit 51,000,000 LBP and 150,000 USD;
 - 3. Revamping Cath-Lab 17,000,000 LBP and 28,000 USD;
 - 4. Establishing NICU 50,000,000 LBP and 200,000 USD;
 - 5. Setting up a COVID-19 emergency room and intensive care unit 105,000,000 LBP and 106 USD;
 - 6. Establishing COVID-19 patients’ rooms 56,000,000 LBP and 25,000 USD;
 - 7. Setting up a COVID-19 vaccination center 32,000,000 LBP and 20,000 USD;
 - 8. Establishing COVID-19 tests lab 450,000 LBP and 11,000 USD;
 - 9. PCR center 15,000,000 LBP and 100 USD;
 - 10. Central Server Room 18,000,000 LBP and 30,000 USD;
 - 11. Chiller 200 tons 10,000,000 LBP and 250,000 USD;
 - 12. Revamping mortuary 5,000,000 LBP and 5,000 USD;
 - 13. Renovating staff elevator 21,500 USD;
 - 14. Renovating patients elevator 23,360 USD;
 - 15. Establishing generators room 117,970 USD;
 - 16. Buying new generators 200,000 USD.

Ward El Makassed Center

In 2014, Makassed set up Ward El Makassed, one of the first community development center of its kind in Beirut’s impoverished neighborhood of Tarik Al-Jadideh- a densely populated area in Beirut regarded as an important stronghold for the low-income and middle-class amongst the Beirut community, attracting also large numbers of Syrian and Palestinian refugees.

Expansion and Development Projects

The gross total of renovation cost at Ward El Makassed amounted to 64,500 USD during 2020-2021:

- 1. Major improvement and repair works of the kitchen 52,000 USD;
- 2. Renovating and equipping training classes 12,500 USD.
