President's Message

The successive recent challenges in Lebanon have only strengthened our commitment and our belief in the necessity of our work and presence alongside our community. Makassed programs and projects overlapped between relief, charity and long-term development projects. Donors and supporters who believe in Makassed had the greatest credit in helping us respond quickly to the developments in our country.

From an academic perspective, the internal modernization of the Educational Affairs department was made possible through new policies and projects based on social, technological and educational improvements and is gradually implemented in all Makassed schools. The firm and new direction taken includes various curricula, equipment and technologies, as well as a mechanism for continuous professional growth in a rich and safe educational environment that allows learners to develop their potential and competencies and achieve success in their scientific, professional and life paths. This is in addition to providing the necessary training for teachers from prestigious American, European and national universities (Harvard, INSEAD, LAU).

In the health sector, and in response to the COVID-19 pandemic, Makassed General Hospital (MGH) was one of the first private hospitals in Lebanon to be fully equipped to receive cases and joined the centers accredited by the Lebanese authorities to conduct laboratory tests to detect the virus and treat patients. The hospital set up a COVID-19 department, which includes a COVID-19 intensive care unit and an isolation section, in addition to securing adequate housing for the medical staff and providing them with the necessary training

in terms of social services, the association gave strategic importance to building the capacity of women and youth (both Lebanese and non-Lebanese) and preparing them to join the labor market through cooperation with UNICEF, UNDP and USAID Programs. Thousands were trained and successfully completed the accelerated and free vocational training courses. Ward Al Makassed, our women empowerment center, implemented income generating activities for women and youth, by providing make-up, sewing, cooking and chocolate making workshops. The opening of a store located in the lobby of MGH contributed to the marketing and sale of products made by Ward Al Makassed, and provided a much needed income to women affiliated with it.

In addition to our continuous work and in keeping pace with the economic conditions in Lebanon, Makassed has initiated and developed an emergency plan to cover the basic needs of all those in need of food, medicine and daily hot meals, without any discrimination of gender, race or sex, and supported in the cleaning and repair 4th deadly of homes affected by the August explosion in Beirut port. As for the Funeral

Services, Makassed improved and restored its cemeteries and secured the necessary burial means to those who died from the COVID-19 virus.

Makassed has always been in direct contact with its people, and their needs are of its utmost priorities. We have at heart to ensure that the zakat and donations of our supporters and philanthropists reach directly those in need, whether it is to treat a patient, provide help to the less fortunate, or teach students.

Many challenges still await us in the coming years, especially with the continuing repercussions of the economic and health crisis affecting a large number of families in Lebanon.

Today, more than ever, Makassed is committed to support those in need and help them improve their economic, social, and living conditions. Makassed adheres to its principles by continuing to develop and provide education, health, and social services to all, in order to build a better future. This cannot be achieved without strengthening our partnership with government institutions, NGOs, private companies, in addition to donors.

Last but not least, I would like to express my deepest gratitude and thank our partners and donors in Lebanon and abroad who support us and help us move forward in achieving our noble mission.

About Makassed

Since its inception in 1878, Makassed has been a leading pioneer in community development and capacity building in Lebanon within three main sectors: Education, Health and Social Affairs.

Following the 4th of August Beirut Port explosion, Makassed dedicated its efforts to support the injured and provide basic needs of those affected by the crisis: such as food and medical supplies, in addition to rebuilding and repairing affected homes. The 4th of August catastrophe has left no one behind, caused mass-destruction in the capital Beirut, and severe damage to its historical heritage, including the Association's historical buildings. The explosion's damages resulted in a millions of dollars restoration bill.

The port blast added to an economic contraction and the COVID-19 global pandemic, which has put a great strain over the Lebanese healthcare sector.

Through its interventions, Makassed Association currently seeks to build a just, equal-opportunity society, built on the pillars of open dialogue, partnerships, education, knowledge, universal healthcare access and prosperity, to all members of society and most importantly, underprivileged, outcasted communities.

Values

Today, Makassed's values remain in line with its initial ethos:

- ◆ Education is essential for economic and social progress
- ◆ Women are vital contributors to such progress
- ◆ Everyone has an equal right to educational opportunities and healthcare
- ◆ Civic engagement is a basic component of social, economic, and cultural strength.

Mission

The establishment of Makassed was based on a culture of tolerance, justice, humility, and patriotism, so that citizens take pride in their values and identity while remaining open to the world and its cultural diversity.

Vision

Makassed is a central pillar of humanitarian activity in Lebanon and was founded to empower society through education. Fundraising and Development Unit.

Fundraising and Development Unit

Overview

The fundraising and development unit at Makassed was established in 2016 to better identify the gaps and needs of the vulnerable communities that are benefiting from its services within its main three sectors: educational, healthcare and development as well as the social affairs.

Besides identifying the needs of the society and of the different establishments under Makassed's umbrella, the fundraising and development department also secures donation sources for ongoing and future projects. Moreover, the department tracks potential funds from international organizations, private establishments, and individual initiatives to expand its activities through different channels.

Mission

The unit seeks to enhance the financial standing of Makassed and support the most vulnerable by mobilizing the necessary resources needed for its educational, healthcare and social services.

Goals

- ◆ Seek funding for Makassed programs through:
 - ◆ Supporting the education of community members who do not have the proper resources to get decent education especially in remote areas;
 - ◆ Supporting health and social services for disadvantaged individuals;
 - ◆ Covering the expenses of the healthcare and educational sector;
 - ◆ Financing endowment funds.
- ◆ Secure communication means and channels to:
 - ◆ Improve the image and intentions of Makassed for its donors and society as a whole;
 - ◆ Develop and maintain internal communication to ensure that the Makassed community abides by its mission.

Funding Prospects and Sources

- ◆ Private companies and institutions;
- ◆ International and local funds;
- ◆ Individual donors.

Budget Distribution Over Makassed Departments

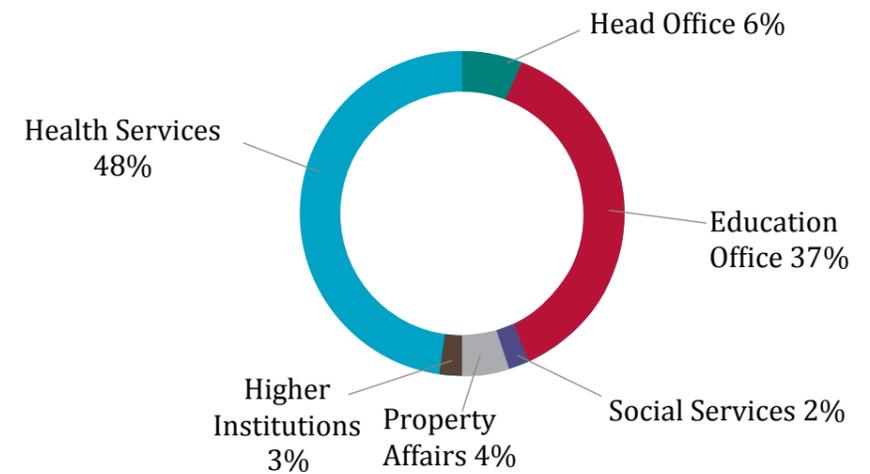

Makassed is in charge of university faculties, vocational and technical training center, in addition to 13 schools across Lebanon, with 4 of them in Beirut and the rest in rural areas.

As for its health sector, Makassed runs Makassed General Hospital along with 4 primary healthcare centres and 3 mobile clinics.

In terms of social services, Makassed runs 7 mosques, a volunteers Unit, a Scouts, a Funeral Services department, a real estate office and Dar Al Makassed for writing, printing and publishing

The yearly budget of Makassed is equivalent to 86,595,433,2 25LBP distributed as per the below:

Education Sector

Education Sector

Vocational Training Centers and Faculties within Makassed University

Makassed Vocational and Technical Training Center Debs building was established in 1994 and offers two types of programs: The first is a professional diploma (BP) and the technical baccalaureate (BT), and grants technical excellence (TS). As for the second type, it offers intensive accelerated trainings in collaboration with various commercial and industrial sectors. The center combines theoretical and practical education, with a focus on the practical aspects of workshops and labs on campus allowing students to gain practical skills.

It also offers annual scholarships, making education accessible to all. The center awarded 335,175,000 LBP worth of scholarships to its students during academic years of 2018-2019 and 2019-2020. The center also helped students through collaborations with private universities in Lebanon to provide them with the best education and support their skills development to enter the labour market.

College of Nursing and Health Sciences

Established in 1948, the College of Nursing and Health Sciences is one of the oldest nursing colleges in Lebanon and the Arab world. The college offers two undergraduate programs in Nursing Sciences and Medical Laboratory Technologies. Since the beginning, it has managed to be a pioneering academic institution that graduates distinguished students able to face the challenges and difficulties of the profession. With the establishment of the University of Makassed in 2000, a bachelor's program in Respiratory Therapy and Medical Imaging Technologies was added and in 2013, the master's in science in Nursing. Students of the College of Nursing and Health Sciences recently achieved again a success rate of %100 in their colloquium exams, with two of them ranking first among all Lebanese universities. Moreover, hundreds of nurses graduated from the college and contributed to serving the Lebanese community by playing high quality roles in the different hospitals they were hired in, whether in Lebanon or around the world.

College of Islamic Studies

The College of Islamic Studies was founded in 1982, providing students with the opportunity to earn a master's or doctoral degree in Islamic Studies.

The college has a distinguished elite of professors and a library that embraces Islamic heritage. It is considered one of the richest libraries in Lebanon with a collection of 100,000 books and 508 original manuscripts.

Makassed is committed to provide equal educational opportunities to all children, regardless of their gender or nationality. Almost %70 of Makassed students benefit from almost free primary education in all its schools across Lebanon. Understanding, tolerance, and acceptance are essential values of Makassed schools in a bid to improve the quality of community's life in Lebanon.

Makassed Schools

Despite its diversification across the years, Makassed has remained true to its initial commitment of providing youth with learning opportunities. Today, Makassed teaches 8,000 students in 13 primary, intermediate and secondary schools from the North in Akkar, Wadi Khaled, to the villages of the South and the Beqaa.

Makassed provides education almost free of charge to 8,905 male and female students in most of its primary schools.

Makassed also provides education for students with special needs through the Learning Difficulties Unit.

With the Covid-19 pandemic, Makassed schools took strict measures, with schools adapting their curriculum to online learning. All Makassed professors and teachers were trained on distant learning and underwent a continuous training from Harvard Graduate School of Education to enhance their new teaching methods and skills while providing a high-quality education. Students were also educated through text messages about the COVID-19 virus and methods of prevention.

Academic Achievements

ABS Cambridge International School

- ◆ International School Award 2018-2021 issued by the British Council.
- ◆ The Green School Award 2018-2019 issued by the MED.
- ◆ First place in the international art competition for human rights.
- ◆ International accreditation by Cognia.
- ◆ Won two first place prizes in the STEM competition organized by the King Hussein Society in Jordan.

Khalid Ben El Walid/ Horj College

- ◆ Signed an agreement with Star Manship to develop leadership skills of the elementary school learners using the Leader in Me book.
- ◆ Signed an agreement with Genius Map to enhance the level and efficiency of the brain among students at the level of the basic education stage. The program was implemented through a school club of its own.
- ◆ Won the first place with distinction for the Green School Award, in addition, 6 primary school students won the technical green student match.
- ◆ International accreditation by Cognia.
- ◆ Several students received university scholarships:
 - ◆ Lina Mneimneh, Mohamad Ali Kibbi: Al Ghurair Foundation scholarships at the American University of Beirut (AUB);
 - ◆ Omar Shehab: Full scholarship at the North Western University in Qatar and %50 scholarship at the Lebanese American University (LAU);
 - ◆ Loulwa Arnaout: %30 scholarship at the Lebanese American University (LAU);
 - ◆ Talal Nasser: %20 scholarship at Haigazian University;
 - ◆ Nisrine Kammourieh: %20 scholarship at Haigazian University and %10 at the Lebanese American University (LAU).

Lycee Khadija El Kobra

- ◆ Educational collaboration and partnership with Lycee Abdel Kader in certain reciprocal courses and activities.
- ◆ Renewal of the Label France Education accreditation.
- ◆ Participation in the ISA project organized by the British Council.

Ali Ben Abi Taleb College

- ◆ Reaccredited by the British Council as an International School ISA 2018-2021.
- ◆ The school nomination for the international accreditation, AdvancED Candidacy was approved.
- ◆ Represented Lebanon in the 2019 World Educational Robotics (STEM-save Lebanon) competition in China.
- ◆ Won several places in the different cycles of the reading competition organized by Sheikh Zayed Bin Nahyan Foundation.
- ◆ Won the 3rd prize in the Global Enterprise Challenge represented by Microsoft for 2019.
- ◆ Participated in the Global Social Leaders Competition 2019.
- ◆ Accredited as a Microsoft Showcase school for 2020.
- ◆ Ranked the second place in the digital scientific research and the first place in the Arab World based on the total points collected in the ALECSO Competition for

- scientific research, organized by UNESCO under the Educational Center for Research and Development during 2019.
- ◆ Won bronze medal for the Green Schools Certification 2019.
- ◆ Obtained the first place in Lebanon in MOS Excel category in cycle four of 2018.
- ◆ Reached the second place among high schools in MOS PowerPoint for 2019.
- ◆ Obtained the second place among high schools in MOS Word for 2018-2019.
- ◆ Achieved the third place in the Lebanese Creative Professor Award (Professor Ahmad Shbaro) for 2019.
- ◆ Signed a memorandum of understanding with the Lebanese American University (LAU) to establish a writing center for 2019.
- ◆ Established a stem Lab sponsored by Makhzoumi Foundation in partnership with The Little Engineer for 2019.

Omar Ben El Khattab College

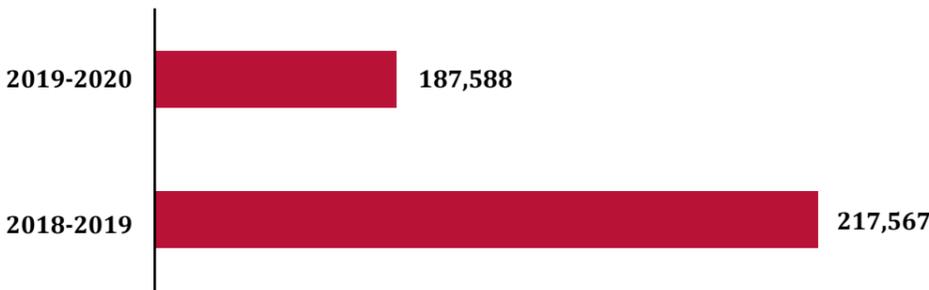

- ◆ Won the second place in the Do Your Bit competition, where students Marwa Al Wafai and Mohamad Al Abdullah submitted two projects under the title “Forest Fire Prevention”.
 - ◆ Received the International School Award 2019-2022 from the British Council, given to schools interested in developing cooperation relations with schools outside Lebanon.
 - ◆ Participated in the 71st German International Invention Fair, IENA 2019 with a project titled «Glue Storyline» prepared by the student Ahmed Al-Rashidi and supervised by Mrs. Nemat Khalil, part of the delegation of the National Authority for Science and Research. The project has won the gold medal and the first place in the environment category in the 2018 Authority’s exhibition, which enabled him to participate in the 2019 IENA exhibition in Germany Mrs. Nemat Khalil represented the college.
- «Glue Storyline» won the bronze medal, and Mrs. Nemat Khalil won an award HAG-AWARD - German Special Prize. The exhibition was held in Nuremberg from 2019/31/10 to 2019/3/11.
- ◆ Shaza Moussa, a ninth-grade student, won the gold medal at the National Science Authority competition for her «Solar Air Cooler» project, where she created an air conditioner working on solar energy.

Schools Renovation

The total donations received for the renovation and rehabilitation of Makassed schools for 2019-2020 reached 187,588\$ and were distributed among the different schools. The table below shows the donations collected for the scholarship fund during the last two years.

Donations to renovate Makassed schools (\$)

The following schools were renovated and rehabilitated:

- ◆ Omar Bin Al Khattab College Building;
- ◆ Ali Bin Abi Taleb College;
- ◆ Khalid Bin Al Walid College playgrounds;
- ◆ Lycee Khadija El Kobra-Makassed;
- ◆ Khalid Bin Al Walid College- Preschool toilets;
- ◆ Establish Khalid Bin Al Walid College Day care;
- ◆ Basketball courts: Omar Ben Al Khattab Ali Ben Abi Taleb, Lycée Khadija El Kobra-Makassed Colleges.

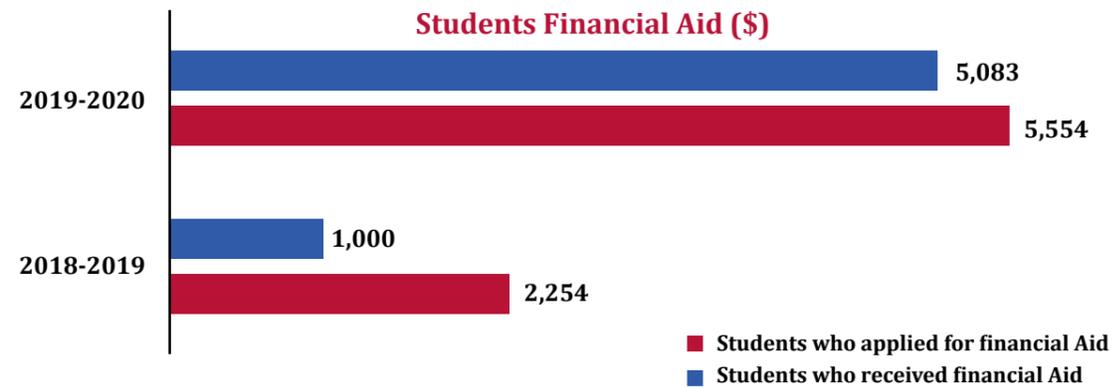

Scholarship Fund

The scholarship fund aims to support families of middle to low income with their children's tuition fees in order to lessen the average of school dropouts among students. The same criteria adopted in the previous academic year were used in the process of giving grants and helping students who need support.

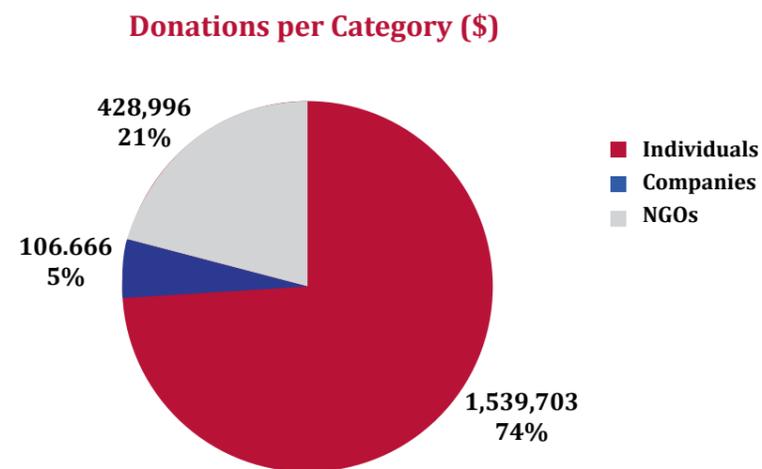

The annual tuition at Makassed schools is equivalent to 2,200\$ of which 700\$ are covered by the Ministry of Education and Higher Education, 800\$ by Makassed scholarship funds and the remaining 700\$ are to be paid by parents.

In 2019-2020, Makassed managed to provide financial support for 5,083 students out of 5,554 that applied for financial aid inside and outside Beirut. As a comparison, in 2018-2019, only 1,000 received financial aid.

The table below shows the number of students in need of financial support versus the number of students who actually received support during the last two academic years, 2018-2019 and 2019-2020.

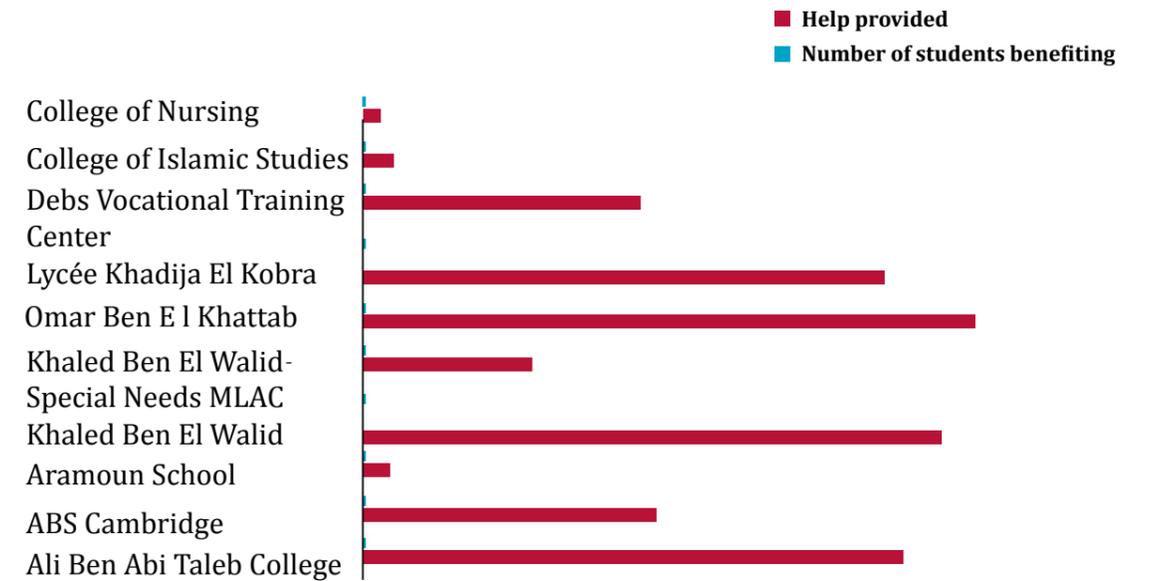

The total donations collected for the scholarship fund for 2019-2020 reached compared to \$1,430,435 in 2018-2019. The donations were obtained as per the following:

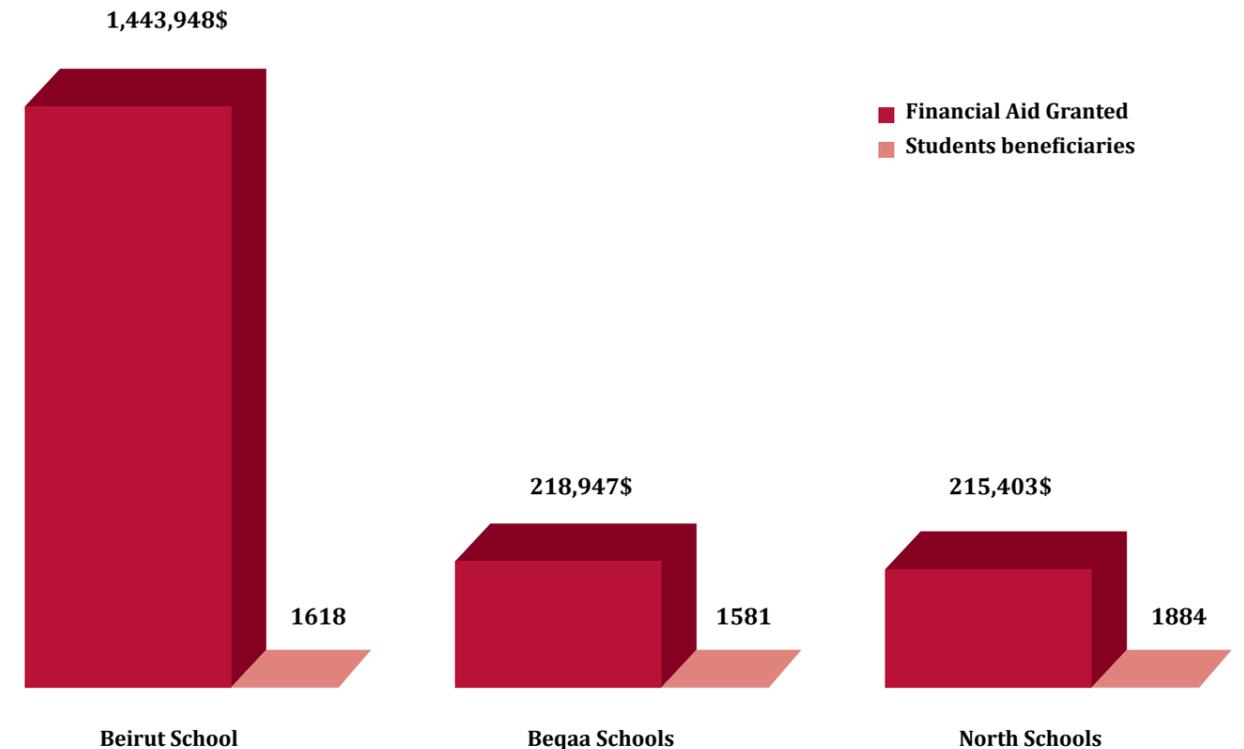

Omar Bin Al Khattab College received the highest percentage of donations from the scholarship fund. A total of 345 students benefited from 287,807\$, followed by Khalid Ben El Walid College, Ali Ben Abi Taleb College and Lycee Khadija El Kobra.

Distribution of Scholarships per Region

Healthcare Sector

Makassed General Hospital (MGH)

Makassed General Hospital – MGH- was established in 1921 in Beirut and kept operating along the years. With many preventive, curative and diagnostic services gradually introduced, MGH became one of the top hospitals in Lebanon.

Makassed seeks to provide high-quality health care services to more than 100,000 men, women and children from all social classes through MGH and the Makassed Health Care Bureau which oversees four health centers as well as three mobile clinics that provide comprehensive health services.

The staff consists of 250 resident doctors, 365 male and female nurses, and more than 260 administrative employees who provide patients, who reached a number of 75,000 patients, with high quality healthcare services.

Amid the COVID-19 pandemic, the staff's capabilities were enhanced, and a new unit was launched. The COVID-19 Unit consists of an emergency room, intensive care rooms and separate rooms for doctors and medical staff in charge of the COVID-19 cases.

MGH also collaborated with other private hospitals such as AUB and LAU to further develop its services and maintain its international standards.

The hospital has collaboration agreements with:

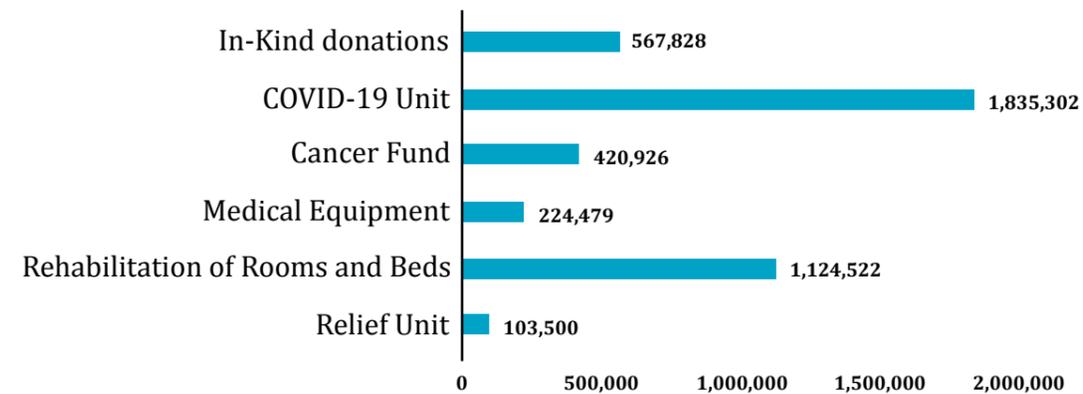

- ◆ Beirut Arab University;
- ◆ Lebanese University;
- ◆ American University of Beirut Hospital;
- ◆ University of Lille in France.

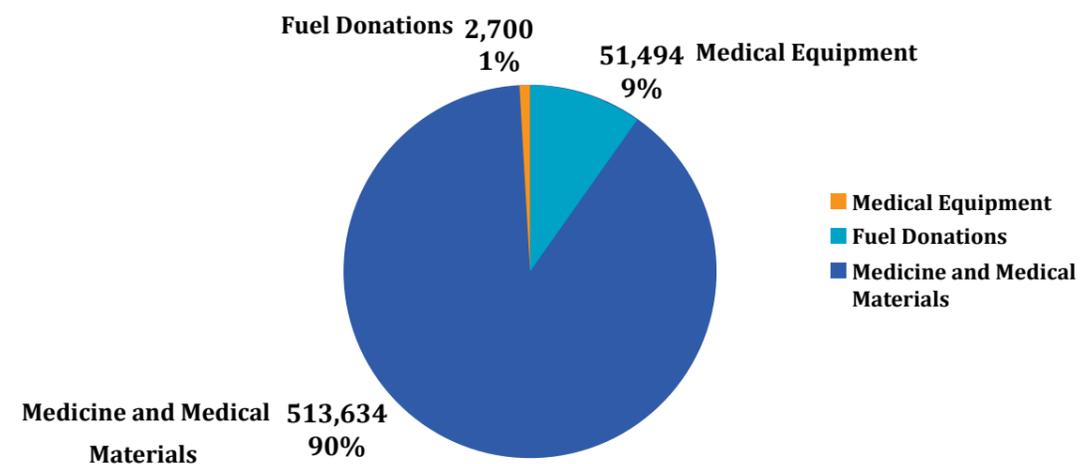

The total donations provided to the health sector amounted to 4,276,557\$ and were distributed as follows:

Donations for the Health Sector (\$)

The total in-kind donations received by the hospital from associations and embassies amounted to 567,828\$, the donations were distributed as follows:

Rehabilitation and Renovation of MGH

- ◆ Endoscopy unit: two endoscopy rooms and a recovery room;
- ◆ Department to receive patients who will undergo a one-day operation: includes 6 beds;
- ◆ Cardiac surgery department and cardioversion room: 3 beds; including a room for isolation;
- ◆ Corona Virus Emergency Department: 5 beds in addition to an isolation room and a sampling room;
- ◆ Corona unit: on the first floor of Al Makassed Hospital, it includes 10 beds, in addition to 5 beds for intensive care;
- ◆ A complete section for the nursing team consisting of 8 cubicles;
- ◆ The private clinics building or the Noor

- building which includes clinics in the speciality: neurology, gynecology, heart device, gastrointestinal, glands and diabetes, eye diseases, bacterial diseases and others;
- ◆ The first floor of Al-Makassed Hospital, which includes the surgery department, and consists of 21 beds;
- ◆ Cardiac catheterization unit;
- ◆ Neonatal Intensive Care Unit (10 beds);
- ◆ Established a Pre-Admission unit;
- ◆ Various development works in the hospital: installing elevators for patient services and the nursing team, installing a chiller, and a transformer;
- ◆ Completion of works in Sana Tabbara building (7 floors), which will include all the administrative departments of the hospital.

Cancer Fund Unit

The Department of Hematology, Oncology and Bone Marrow transplantation was one of the first established in Lebanon in 1997 to treat patients with cancer. Today, this center has 26 beds for adults and 8 beds for children.

The cancer fund supports cancer prevention, early detection, and treatment for cancer patients. All types of treatments are provided under this unit including blood transfusion, chemotherapy, immunotherapy and targeted therapy, which are divided into:

- ◆ Day treatment;
- ◆ In-patient treatment;
- ◆ Stem cells withdrawal;
- ◆ Bone Marrow transplantation.

Achievements:

In 1997: The first bone marrow transplantation was performed in Lebanon;

In 2009: The first stem cell transplant was performed on a 4 month old patient with immunodeficiency;

In 2018 :273 newly diagnosed cancer patients were treated;

In 2018 : 2,500 medical services were provided.

The total cost for providing 2,500 medical service annually is 1,200,000\$. Makassed General Hospital seeks to support 2,400 medical services annually with a 500\$ coverage for each to help them meet their health and medical needs.

The total donations received for the cancer fund were 420,926\$ for 2019-2020 compared to 171,209\$ in 2018-2019.

Primary Healthcare Centers (PHCCs)

Primary Healthcare Centers

◆Wadi Khaled Primary Healthcare Center: Canadian Accreditation Holder, 2015.

◆Horoj Primary Healthcare Center: Canadian Accreditation Holder, 2017.

◆Bashoura Primary Healthcare Center: A pilot survey was conducted in the accreditation system during 2014 and currently he center is prepared to obtain the Canadian accreditation.

◆Mouseitbeh Primary Healthcare Center: This center is currently being preparing to undergo the first experimental phase of the Canadian Accreditation process.

The Makassed Communal Healthcare Bureau provides the following services through its primary healthcare centers:

Preventive Services

- ◆ School Health Program;
- ◆ Vaccination Program;
- ◆ Non-communicable diseases program;
- ◆ Malnutrition program.

Awareness and Educational Services

- ◆ Peer education;
- ◆ Awareness sessions;
- ◆ Educating individuals.

Diagnostic Services

- ◆ Laboratory Tests;
- ◆ Sonography and X-rays.

Curative Services

- ◆ Medical consultations;
- ◆ Provide acute and chronic medications as well as contraception.

Mental Health Services

- ◆ Individual and group psychological support services;
- ◆ Psychiatric services.

COVID-19 Intervention

Makassed General Hospital and Makassed Communal Healthcare Bureau have doubled their efforts amid the pandemic to provide exceptional medical and social support to the community especially with the worsening of the economic situation and the increase in the number of COVID-19 cases.

MGH has prepared an isolated unit “Triage Prefabricate Container” designated to host 12 patients and to separate positive cases from the negative ones. Moreover, 5 intensive care rooms of “Negative Pressure” were established separately from the hospital building with a capacity of 20 patients to treat. A special area was also designated at the hospital to accommodate the medical staff who are treating the isolated patients.

The total number of donations collected for the COVID-19 fund amounted \$ 1,835,302.

After the August 4th, 2020 blast, Lebanon faced a huge increase in the COVID-19 cases. The wounded and injured were transported

to hospitals and preventive measures were not properly taken. As a result, many healthcare workers along with citizens got infected with COVID-19 forcing the Lebanese government to impose a lockdown. Makassed played an active role in the regions of Ras Al-Nabeh and Tariq Al-Jedida, in cooperation with the area’s representatives and with the support of UNICEF.

A group of Makassed volunteers on the other hand, consisting of 30 volunteers, distributed informational leaflets to spread awareness among residents of those two areas where the virus had spread deadly. They also distributed personal protective equipment such as washable masks and sanitizing materials.

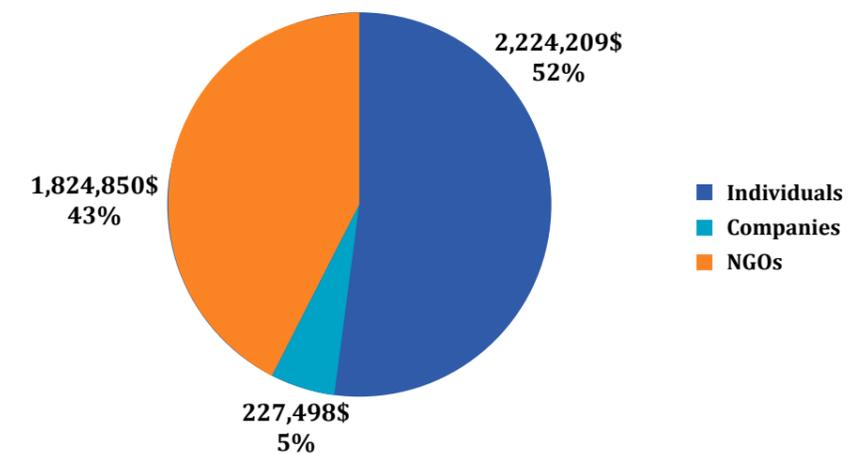

Makassed was able to attract the attention of the local community and raise awareness on the importance of adopting preventive methods and take as much precautions as possible to prevent the spread of the virus. More than 1,500 masks and 1,200 personal protective equipment kits have been distributed in the Ras Al-Nabeh area. In Al-Tariq Al-Jedida area, Makassed volunteers visited Jalloul, Afif Al-Tibi, Sabra, Abu Sahl Street and Al-Barjawi Street, and were able to communicate with more than 8,560 families to spread awareness on the virus and its dangerous consequences.

The washable masks distributed were manufactured at Ward Al Makassed Center, Makassed women and youth empowerment center which offers cooking, handicraft and beauty services trainings. Volunteers and scouts participating also attended a training course on COVID-19 personal prevention methods and on identifying it at an early stage by a specialized medical team at the Makassed General Hospital. Another training course was also given to volunteers at the University of Balamand on how to spread awareness. “Hemaya” Association has also offered a training on the methods to approach this type of field work.

Social Services Sector

Ward El Makassed Center

Ward El Makassed center is an empowerment center for women and youth offering women free education and trainings in different fields. It was established in 2014 to meet the society's needs and aspirations. The center aims to provide women and youth with job opportunities, provide literacy and capacity building through its various vocational trainings. The trainings aim to provide beneficiaries with practical experiences in the different professional sectors and keep them up to date with the requirements of the labour market, allowing them to find jobs and increasing their household income.

The Ward El Makassed Center is a unique center, as it provides accelerated vocational trainings which is considered an urgent need to improve opportunities for women and youth in the labour market and production to achieve social integration.

Makassed is keen to ensure the sustainability of projects to empower women and youth and build their capabilities, believing that its role is to refine their skills and improve the financial conditions of their families, and thus the development of their local community.

Departments:

- ◆ Literacy and Adult Education;
- ◆ Technical Sewing and Craftsmanship;
- ◆ Ladies Beauty & Cosmetics services;
- ◆ Industrial Kitchen: Restaurant and Catering.

The total donations received for the social services sector reached 1,966,516\$ for 2019-2020 compared to 2,011,085\$ received during 2018-2019.

Ramadan's Donations

Makassed always holds several Ramadan activities such as Iftars, allocating proceeds to support individuals in need. Makassed hosts annually two major iftars in Beirut and the North with many Makassed supporters and partners as attendees.

The Makassed Volunteers Unit also organizes "Mawaed El Rahman" hosting at least 100 beneficiaries in need, including children and elderly as a gesture of goodness.

During 2019-2020, Ramadan activities were not the same as the years before. Although the COVID-19 pandemic has imposed many restrictions, Makassed managed to receive donations from individuals and previous years supporters.

The total donations for 2019-2020 reached 289,162\$ compared to 396,290\$ received in 2018-2019.

The donations were as follow:

- ◆ Zakat Fund Donations: 186,719\$
- ◆ Iftar Meals: 8,675\$
- ◆ Ramadan Donations: 93,768\$

Ramadan Donations (\$)

In-Kind donations

After the August 4th explosion in Beirut Port, Makassed distributed 4,050 bread bags to those in need in collaboration with the Lebanese Army. The "World Center Kitchen" provided Ward Al Makassed with meals to

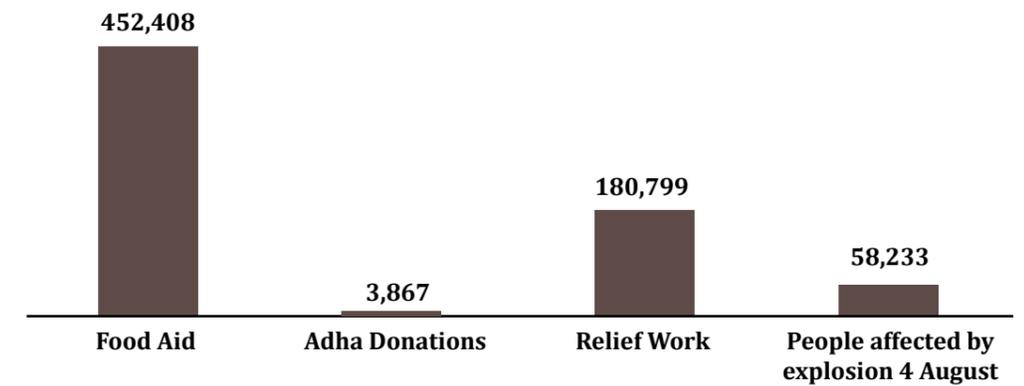

distribute to Makassed volunteers during their relief work. The total number of meals served until August 31st reached 9,668, while the total in-kind donations amounted to 45,047\$.

Other Donations and Social Services

These donations include food donations, animal religious sacrifice and relief work. The total amount of donations received for food aid, Holy Ramadan, Eid El Adha and relief work was 695,307\$ distributed as follows:

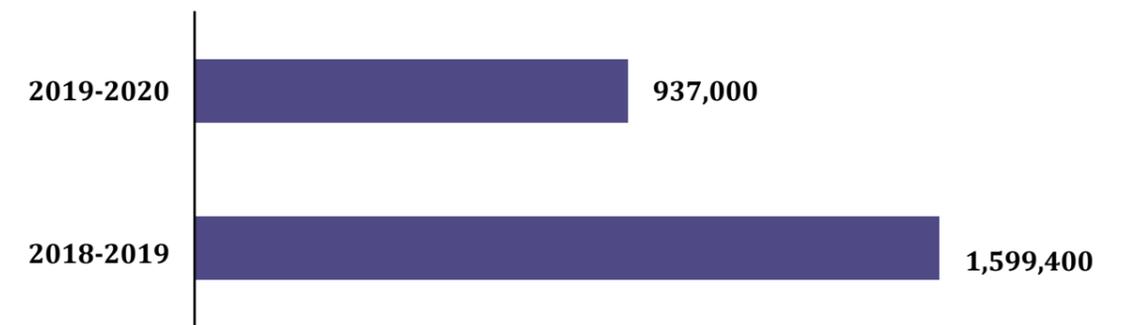

Donations on other social services (\$)

Funeral Services Fund

The total donations received for the Funeral Services was 937,000\$ in 2019-2020 compared to 1,599,400\$ in 2018-2019.

Makassed Support Fund (\$)

Projects with Local and International Organizations

Enhancing Stability: Opened Opportunities for Resilient Lebanese and Non-Lebanese Youth - UNICEF

With a generous support from UNICEF, Makassed continued the implementation of “Enhancing Stability: Opened Opportunities for Resilient Lebanese and Non-Lebanese Youth” by providing accelerated vocational trainings. Makassed aims to increase the number of beneficiaries (both males and females) due to the recent economic crisis and to contribute to their development with different specializations to help them secure employment opportunities. The trainings are offered to Lebanese and non-Lebanese youth, free of charge and are implemented in Beirut, Mount Lebanon, Akkar in North Lebanon, and the Beqaa Valley. Through this project, Makassed strives to help beneficiaries secure skills to improve their living conditions and face future challenges. In its second year, the program targeted 1,100 young men and women between 15 and 24 years’ old who have dropped out of school. It helped them develop their capabilities and improved their access to better job opportunities. In 2019, the UNICEF project targeted 9,032 male and female beneficiaries.

Empowering Youth and Women Through Skills Development – USAID

The project «Empowering Youth and Women through Skills Development» aims to provide Lebanese and non-Lebanese youth with vocational training programs that will increase their self-reliance and equip them with technical skills and tools to facilitate their entry into the job market. Within the framework of the USAID-BALADI CAP project, the aim was to target 420 beneficiaries between the ages of 15 and 35. The main objective of the USAID-BALADI CAP project and Makassed is achieved by providing registered trainees with professional training and life skills as well as language improvement courses. In addition, 84 beneficiaries were selected based on their performance in the training assessments and their commitment to the course to undergo a training period in the various Makassed establishments to gain hands-on practical experience in their field of specialization.

The Socio-Economic Empowerment of Women in Beirut Poverty Pockets – UNDP

In cooperation with the United Nations Development Program (UNDP) on the project «Empowering Women in Poverty Pockets in Beirut», Makassed registered 130 women aged 18 years old and above and provided them with trainings in five different fields: artisanal work and crochet, cooking and catering, chocolate and desserts making, pottery and ceramics as well as beauty care.

All trainings were held at Ward Al Makassed from August 2020 till December 2020.

While completing their vocational trainings, a selected number of women had the opportunity to participate in income-generating activities and benefited from additional trainings in business and life skills relevant to their trainings.

Life skills training provided women with practical work methods and different pathways to enter the labour market, whether through start-ups, freelance services, and other employment options available at hand. Topics covered during the training included the fundamentals of business planning, budgeting, problem solving, critical thinking, cooperation, and self-expression in their field of study. During the project phases, five income generating activities were completed.

The whole purpose of this project is to provide women with an opportunity to develop their skills through various activities and improve their living conditions by facilitating their entry into the labour market.

After the August 4th explosion, one of the initiatives within the framework of the UNDP project was to provide similar rapid trainings for women and youth affected by the blast. Women who enrolled in the handicraft as well as Beauty Care classes received a special toolkit at the end of their training to allow them to start a small business and earn their own income.

Maternal and Child Health

This initiative was launched in Wadi Khaled, North Lebanon, back in 2003 in collaboration with the Ministry of Public Health. It aims to support Lebanese mothers and provide them with basic health care services such as free natural birth with a follow-up period of 40 days after delivering. It targets 380 women annually and offers vaccination for 350 children. Moreover, this project requires close cooperation with Al Salam Hospital in Lab Kbiyat in order to transfer severe and caesarean deliveries. The annual allocated budget for this program is 430,000,000 LBP.

Birth/Reproductive Health Application- Intersos

This project focuses on implementing and regulating birth health and provides the following services free of charge:

- ◆ 200 inspections;
- ◆ 60 audio images;
- ◆ 80 cervical screening procedures;
- ◆ 8 procedures for placing an intrauterine device;
- ◆ Follow up for 43 pregnant women in Bashoura Primary Healthcare Center.

The above was implemented in collaboration with Intersos from 2020/08/05 till 2020/30/11 with a budget of 28,969\$.

United Nations Population Fund-UNFPA

- ◆ Covered 8,000 surveys distributed between Wadi Khaled and Al-Horj primary healthcare centers, and the three mobile medical clinics operating in Beirut, Wadi Khaled and Beqaa.
- ◆ Spread awareness on the importance of reproductive health for 2,600 beneficiaries.

This project was implemented in cooperation with UNFPA, its implementation began on 2020/15/06 till 2020/31/12 with an allocated budget of 47,377\$.

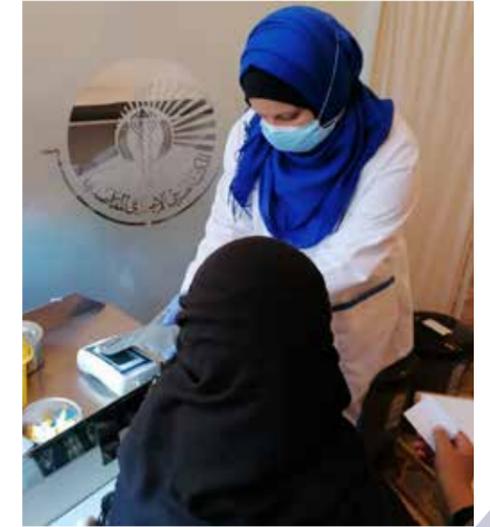

Improving the Health status of Lebanese and Syrian citizens in Lebanon- Help Age

Through this project, Makassed managed to:

- ◆ Target 556 elderly people over the age of 40;
- ◆ Perform a COVID-19 test for 800 beneficiaries;
- ◆ Provide 400 beneficiaries with psychological support.

This project was completed in collaboration with HelpAge. It was implemented from 2020/01/09 till 2020/12/31 with a budget of 16,073 Euros.

Supporting Health Services in Beirut Primary Healthcare Centers

This project aims at facilitating unimpeded access to health services to every patient by reducing costs. The contract was signed with International Medical Corps in the Horj and Mosaitbeh primary healthcare centers and with the International Relief Organization for the Bachoura PHCC.

The health services package included:

- ◆ Medical examinations;
- ◆ Diagnostic services such as laboratory and radiology;
- ◆ Psychological and mental health services.

Its implementation began on 2020/26/10 and is continued until 2021/25/01, within a budget of \$ 26,085.
